

It's In The Way It Moves*

Flomotion

Multi Pane Stacking
Sashless Window

The new Flomotion by Aneeta delivers the maximum opening area ever available in a sashless window system.

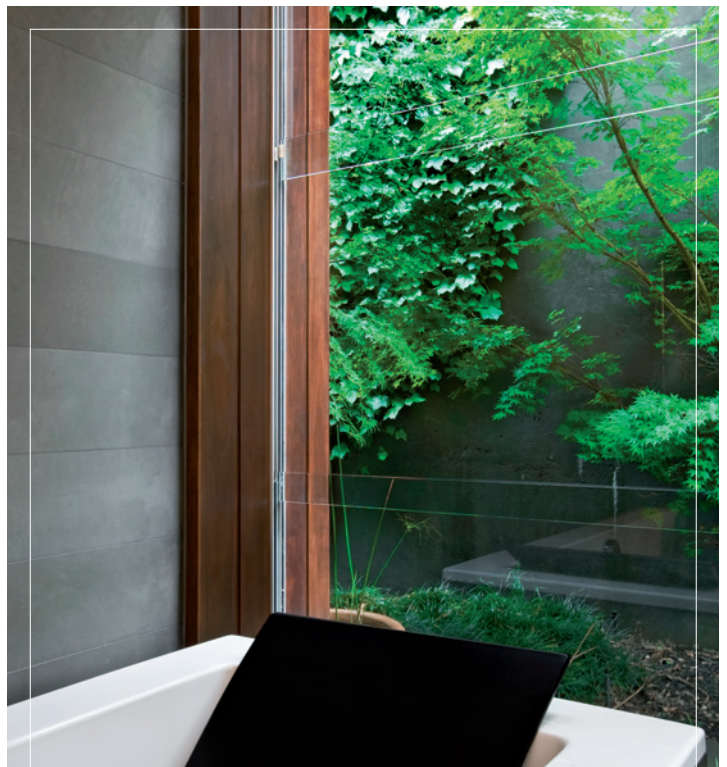

With the ability to stack the 2 panes in either the upwards or downwards position, the Flomotion takes contemporary sashless window design to a new level.

*Provisional Patent #2015902492

Flomotion

With one fluent movement, the Flomotion creates the maximum opening area ever available in a sashless window
